SESSION 1

FOUNDATION OF SOCIAL MEDIA MARKETING

TASK :1

Social Media Marketing by Two Daily-Use Apps

Instagram: Instagram uses social media marketing to grow its user base mainly through visual and video content such as Reels, Stories, influencer collaborations, and personalized recommendations. It encourages users and creators to share content, which increases engagement and attracts new users. Instagram also promotes trends, hashtags, and creator partnerships to keep users active on the platform.

Zomato: Zomato uses social media marketing through funny and relatable posts, food-related memes, short videos, festival campaigns, and influencer collaborations. Its creative content encourages users to engage, share posts, and discuss food. Zomato also promotes offers and new restaurants through social platforms, helping increase app downloads, orders, and customer loyalty.

TASK: 2

Facebook vs Instagram vs LinkedIn for Business Marketing

Platform	Target Audience	Main Content Types	Best Business Use Case
Facebook	Broad audience, adults, families, local communities	Videos, images, posts, groups, ads, live videos	**B2C** marketing, local businesses, community building and paid advertising
Instagram	Younger audiences, creators, shoppers, lifestyle-focused users	Reels, Stories, photos, carousels, influencer content	**B2C/D2C** brands, fashion, beauty, food, lifestyle and product promotion
LinkedIn	Professionals, business owners, decision-makers and recruiters	Articles, industry posts, videos, case studies, company updates	**B2B** marketing, lead generation, professional networking and employer branding

---

TASK: 3

Best Platform for a New D2C Fashion Brand in 2026

I would prioritize **Instagram** for launching a new D2C fashion brand in 2026. Fashion is highly visual, so Instagram is suitable for showcasing products through Reels, Stories, photos, and short-form videos. Influencer and creator marketing can also help the brand reach targeted audiences and build trust. Social commerce features can make it easier for customers to discover products and move from content to purchase. I would especially focus on short-form video, creator collaborations, user-generated content, and personalized content. Therefore, Instagram would be my primary platform, supported by other channels such as Facebook and YouTube.

TASK : 4

Three Differences Between B2B and B2C Social Media Marketing

Difference	B2B Marketing	B2C Marketing	Example
1. Target Audience	Targets businesses, professionals and decision-makers	Targets individual consumers	**Microsoft** targets businesses and professionals, while **Nike** targets individual consumers
2. Content & Communication	Focuses on educational content, industry insights, case studies and professional solutions	Focuses on entertaining, emotional and visually attractive content	**LinkedIn** content from Microsoft often focuses on business and technology; Nike uses inspirational and lifestyle-focused content
3. Buying Process	Usually involves longer decision-making and relationship building	Often involves faster, emotion or trend-driven purchasing	**Salesforce** builds B2B relationships through expertise and business solutions, while **Zomato** uses offers, memes and engaging content to encourage quick consumer action

Conclusion: B2B social media marketing is generally more focused on **trust, expertise and lead generation**, while B2C marketing focuses more on **engagement, entertainment, brand awareness and direct sales**.
